TX4ALL - Accessibility and inclusion for all to public tourism assets & services

The TX4ALL project is transforming tourism in the Greece–North Macedonia border region to be more inclusive for all, especially elderly people and those with disabilities. Key initiatives include smart audio systems at crossings in Thessaloniki, accessible signage and navigation aids in both countries, inclusive beach equipment at Doiran Lake, and mobility solutions in Strumica. The project will also offer a multilingual visitor guide and promote awareness, entrepreneurship, and job opportunities for people with disabilities. These efforts aim to boost accessibility, foster economic growth, and encourage social inclusion in the region.
